

SHEPHERD OF THE HILLS SCHOOL – WISH LIST

Your support of Shepherd of the Hills Lutheran School helps us to “Preach, Reach, and Teach” in the La Mesa community. We will again have an increase in enrollment for the following school year and most likely will hit our cap for each classroom. The following items would be beneficial to the education and ministry of our grade school.

IPAD’s – (\$325)

The IPADS allow us to continue to incorporate technology in the classrooms to further individualize instruction and teach our students the technological skills to continue to learn and explore their curiosity.

OSMO – (Classroom Kit - \$399)

Osmo enables the iPad and iPhone to merge the power of physical play with the digital advantages of real-time feedback. Playing beyond the screen invites students to collaborate on tables or floors while manipulating tangible game pieces such as number tiles, letter tiles, and coding blocks.

EDISON ROBOTS (Pack of 10) - \$350

The Edison robot is a powerful, engaging tool for teaching kids STEM, computational thinking and computer programming in a hands-on way.

SOLAR TUBE – (\$200)

This will provide natural light for the girls’ bathroom.

STREET HOCKEY SET – (\$250)

Our students are able to use this during recess and PE.

NUMBERED SPOT MARKERS – (\$50)

These will be used for games and organization in the lower grade classroom.

IKEA Gift Card or Amazon – (Any amount)

games, manipulatives, classroom furniture, and furnishings)
